Modern Art – our rugs collection

DO IT YOUR WAY

Modern Art is a range of designer rugs for the home, businesses or public spaces.

Choose one of Fletco's many designs – or design your own, unique rug to suit your furniture and interior. By doing so, you can create the perfect atmosphere in a room which sends all the right signals.

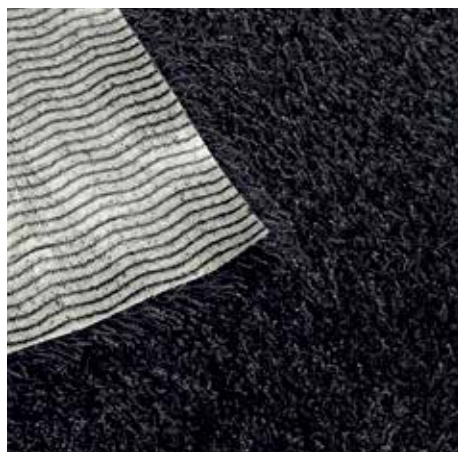

The same competitive price per square metre applies, regardless of whether you choose a Fletco design or create your own.

Quality: Modern Art - 336
Colour: 720

Modern Art – 336 Fluffy

SAFE, SOFT & GOOD ACOUSTICS

Modern Art gives you a soft, comfortable, springy and strong rug, which improves the acoustic properties of a room whilst blending its practical aspects with being unique and decorative.

It also represents the ideal floor covering for smooth floor surfaces (please see product information), such as tiles, concrete and wood. Lay the laminated backing on a clean surface to ensure that the rug lies flat, is safe and will not slip.

Quality: Modern Art - 344
Colour: 330

COSINESS INCLUDED

For pleasure and delight. For challenge or admiration. Discreet or eye-catching. You decide.

Quality: Modern Art - 334
Colour: 630

PLAY WITH OUR SHAPES

Quality: Modern Art – 331 Florenz
Colour: 850

Quality: Modern Art – 331 Florenz
Colour: 680

Modern Art comes in a range of shapes and sizes, all designed by Fletco's own designers. Ready to be placed and combined to suit your own personal taste.

If you have room for more than one, unleash your imagination. Create harmony by repeating the same shape, but perhaps in different sizes. And different colours. Or use different shapes to create contrast.

The range is in constant development, and will be regularly updated at www.fletco.com

CREATE YOUR OWN SHAPE

Quality: Modern Art – 331 Florenz
Colour: 520

Modern Art gives you complete freedom to design rugs in shapes and figures to match your own requirements. Use that freedom to complement the design and positioning of your furniture. Adapt to the type of room - is it intended for relaxation or activity, for instance?

Round, oval, seven-sided, tear drop-shaped. Flowers, animals, letters, numbers... Let your imagination run wild for your own personal Modern Art design.

Before you start drawing, check out our guidelines and find inspiration at fletco.com under "Create". Take your final design with measurements and colour preference to your local dealer, who will give you a price and place the order.

BUSINESS UNUSUAL

For pleasure and delight. For provocation or admiration. Discreet or eye-catching. You decide.

MODERN ART 344

DESIGNING YOUR OWN RUG

Choose your shape and size

Modern Art comes in a range of shapes and sizes, all designed by Fletco's own designers. Easy to place, easy to combine and match to your personal taste.

You can find all shapes and colours at www.fletco.com.

Ordering process:

Modern Art custom shapes are divided into three groups.

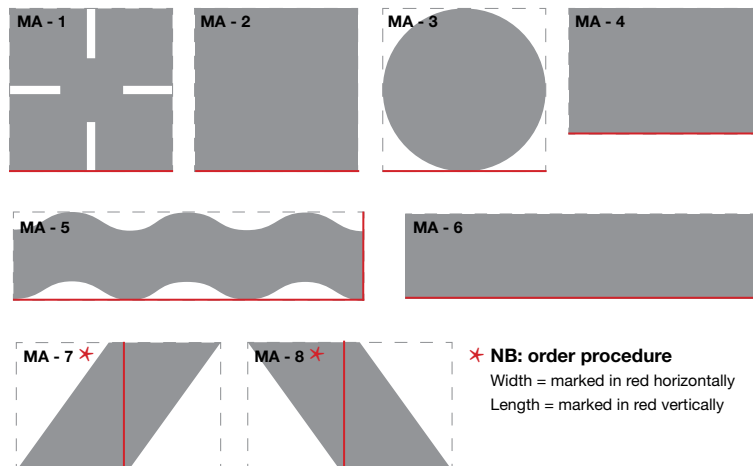

Quality: Modern Art - 334 Cozy
Colour: 250

GROUP A

Rectangular, square, circular

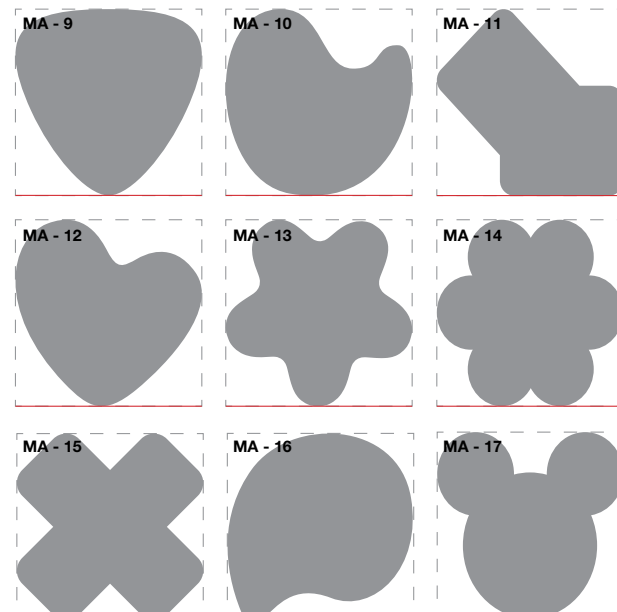

We make carpets in individual sizes up to 400 cm width.

GROUP B

Customised shapes creating a square design.

The length and width are always identical. Choose the ideal size for you.

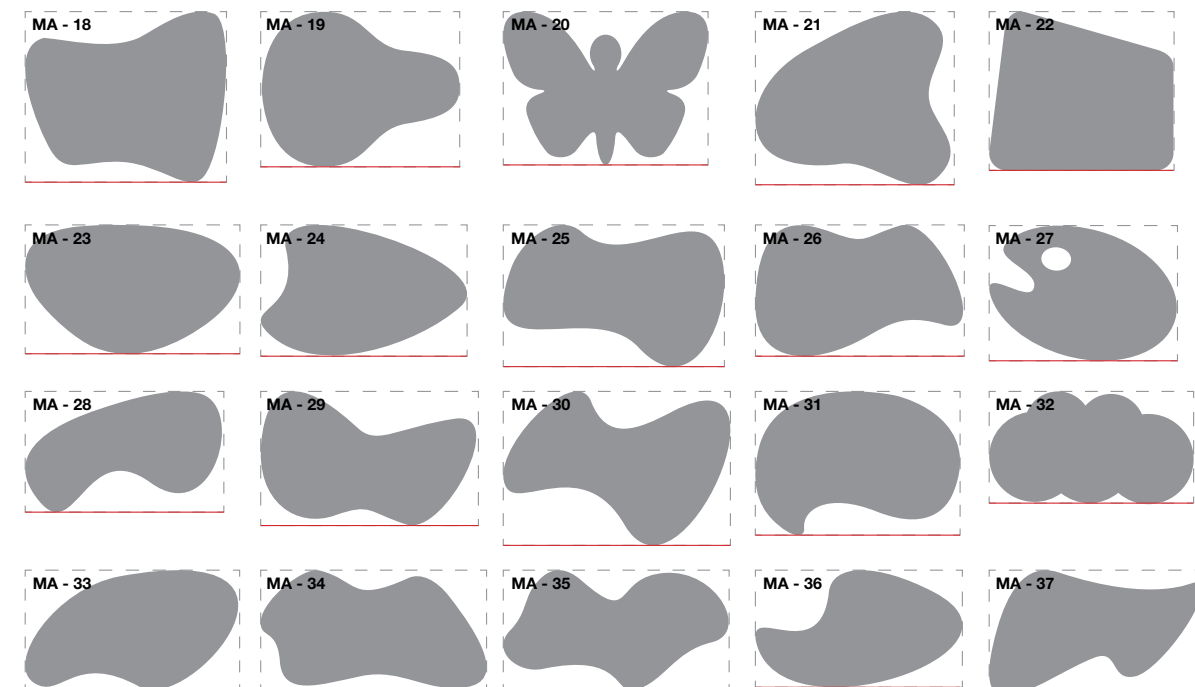

GROUP C

Customised shapes in different widths and lengths.

For these patterns, state only the longest dimension (marked in red). Proportions will automatically be adjusted to fit. Print your choice of carpet and send us your order.

When we have your order in hand, you will receive a detailed order confirmation stating the actual measurements (length and width). All custom-made sizes and shapes are calculated at a special price per m², based on the longest length and width. The minimum order quantity is 1.5 metres square.

HOW TO CREATE

- plan, draw, create, order

Modern Art rugs can be personalised to your chosen design, colour and size. Let your imagination run wild. If you would like to create your own rug, please send us your draft design with details on graph paper.

Other advantages of this product:

Modern Art rugs are suitable for smooth and clean surfaces in particular as they are made with an innovative backing that limits slipping (please see product information). Expensive borders are not required as the rug's backing is cut resistance.

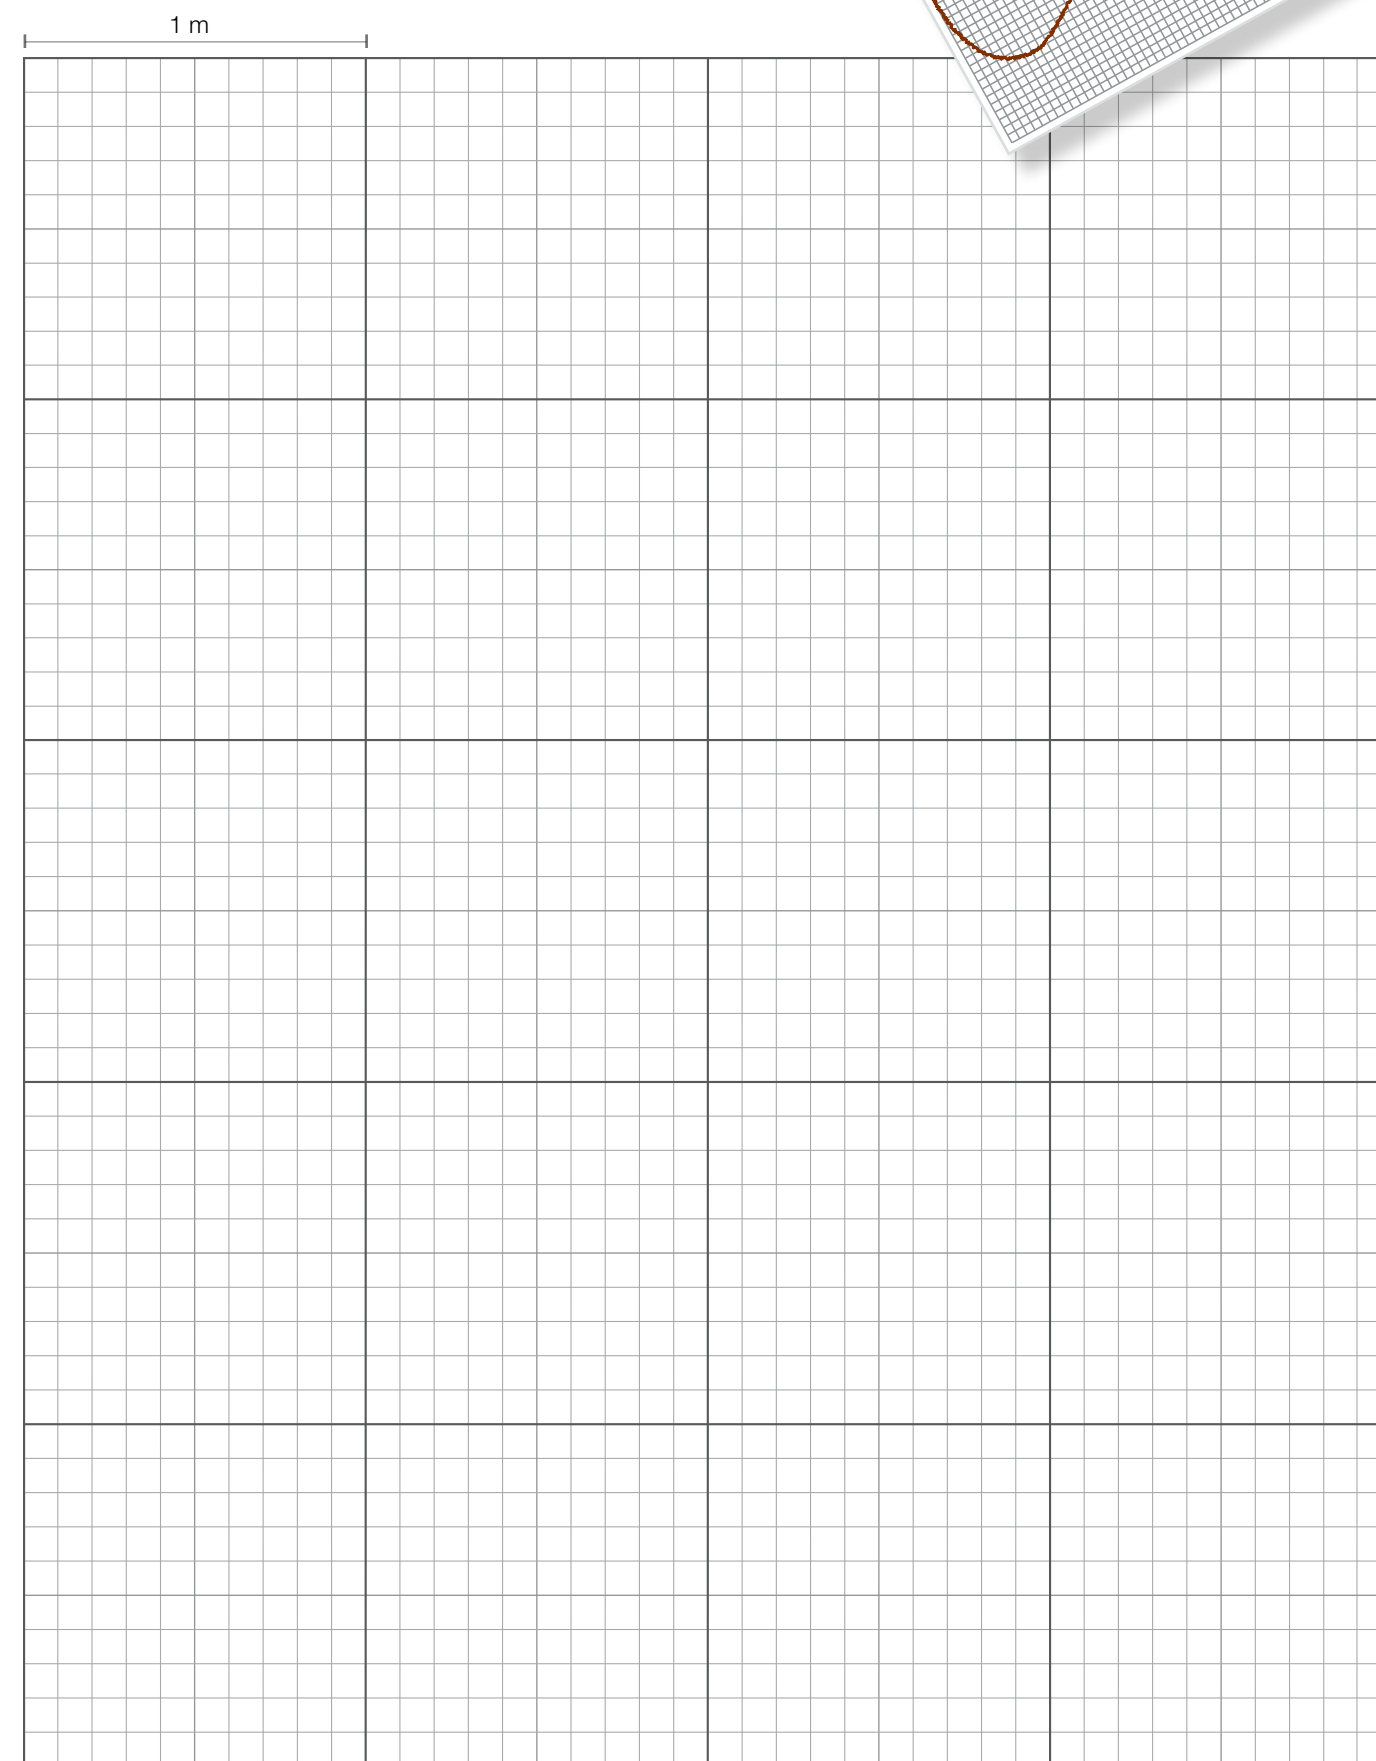

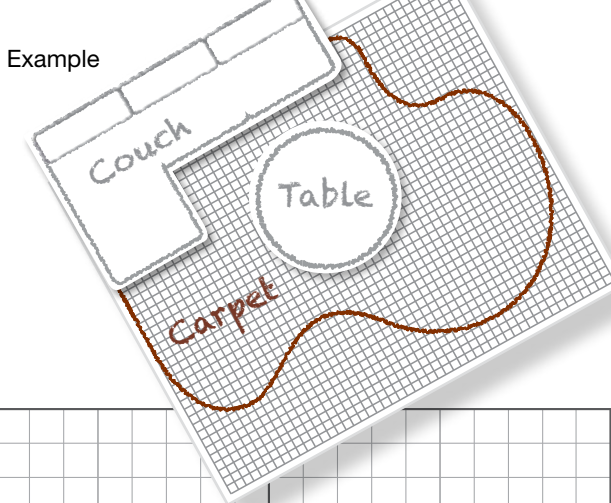

Please note the following points when ordering:

1. Download and print the planning paper from www.fletco.com.
2. Create your draft design on the planning paper; the draft can be no larger than 400 x 500 cm.
Please note that each box on the planning paper corresponds to a 10 cm x 10 cm unit.
3. Choose the quality and colour and include in the document. Example: Modern Art 331 Colour 350
4. Scan the draft design and send as a PDF file to your Fletco contact or directly to Fletco Carpets.
5. After receipt of your order, we will fine-tune your draft design for production and send a specified order confirmation with a printout of the rug and the final measurements.
6. The largest length and width in square metres is calculated at the custom measurement price. The minimum quantity for an order is 1.5 square metres.

In the draft please avoid using pointed or filigree designs, as these cannot be created in production.
See OK and NO examples

Planning Example

4 x 5 m
